Stephen Wolbers

This set of minutes, and all future minutes, are or will be deposited in the Beams Document Database as document number 792.

Monday, December 8, 2003 meeting:

We met on Monday morning to look at the preparations for the review of our technology direction, scheduled for December 16, 2003. We spent some time on:

1. Proposed agenda.
2. Charge to the reviewers.
3. Documents for the reviewers.
4. Any other issues relevant.

Wednesday, December 10, 2003 meeting:

1. Bob and Steve:

- Continue to make preparations for the review. Meetings scheduled for Friday, December 12 and Monday, December 15 to continue and complete preparations.

2. Subproject Leader (very brief) Reports:

Jim Steimel:

- Jim gave a talk about p/pbar separation, how it works, possibilities if the frequency domain de-embedding technique is shown not to work or works less well than required.

Mike Martens:

- Thinking about buffers and working with Margaret to understand the data that is necessary in the system.

Vince Pavlicek:

- Working on review.

Margaret Votava:

- Working with Mike (above).

Brian Hendricks:

- Looking at BLM applications and determining where the modifications of the data format affects the applications.

Rob Kutschke:

- Looking hard at all of the new and old data to see how well the pbars can be seen using the de-embedding technique.

3. AOB.
