- Q&A, Discussions

Committee

Mike Martens (Chair)
Keith Gollwitzer
Valeri Lebedev
Craig Moore
Denton Morris
Stan Pruss
Mike Syphers

Charge

- Are the proposed set of BPM measurement capabilities complete?
Are they adequate to ensure the effective operation of the Main Injector (and associated beamlines) through Run II?
- Prioritize the proposed measurement capabilities.  In your  view, which ones are most important, and which are least  important?
