

Synclite Master Document

This is a list of all living documents concerning the Synclite system. The documents in this list should be up-to-date descriptions of the hardware, software, and performance of Synclite.

BEAMS-DOC-1098 – High level hardware schematic. Also includes the AGI system, since they are somewhat coupled.

BEAMS-DOC-1262 – User manual for running the system.

BEAMS-DOC-1738 – List of all ACNET devices on the Synclite system.

BEAMS-DOC-1975 – Detailed document covering the optics and performance of Synclite.
