

# Cables installation

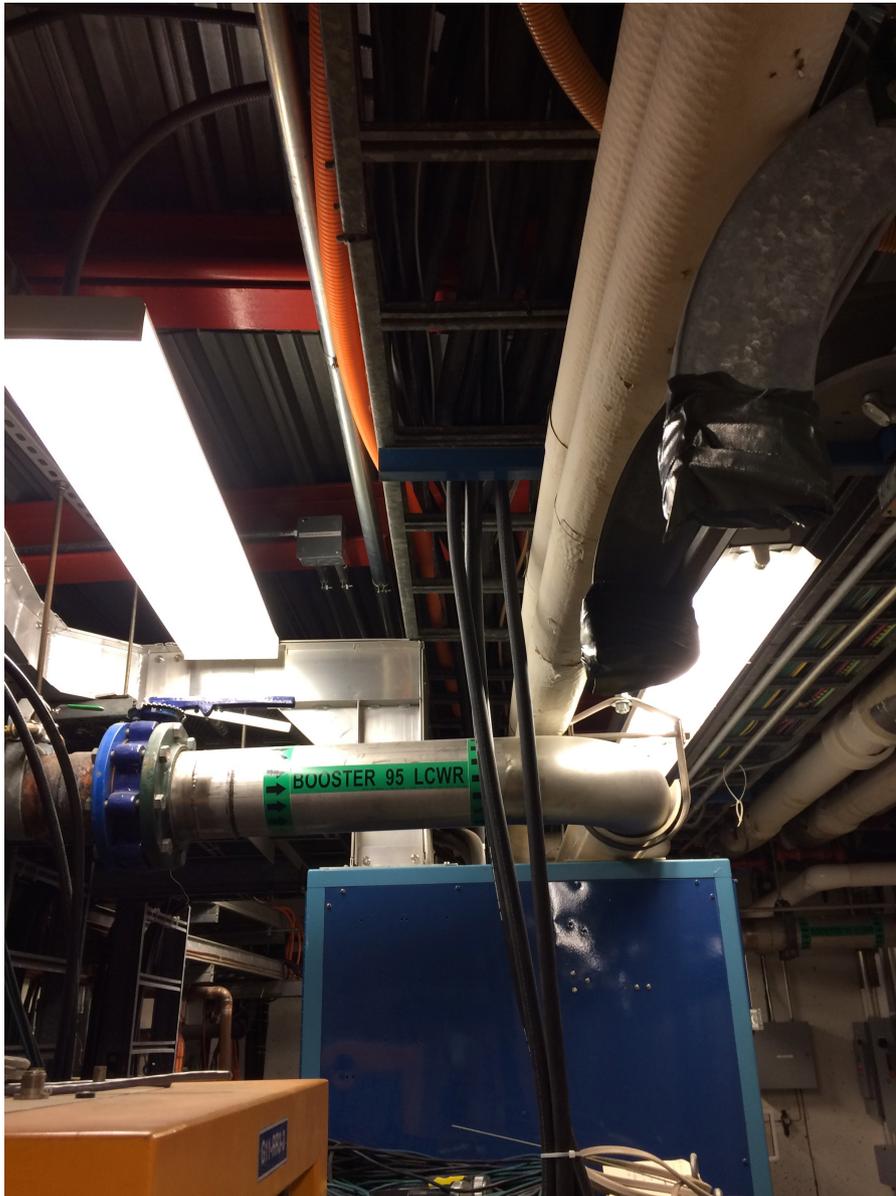

C.Y. Tan  
19 Mar 2018

# Cables for Modulator

Power

# Cables for Bias supply

May need to be pulled back  
from present location

From here to here

# SSA cables

SSA cables have cable rack. I think it's ok.

How will water hoses be connected?

# RF cables

Cables to end up in this rack

Do we need a cable tray?

Looks like it will just drape over current cable tray.
